How would you rate today's webinar?

378 responses

What is the best part of the webinar? 239 responses

- Remimazolam
- Q and A
- Lectures
- Discussion
- All
- Remimazolam
- Q&A
- Learning about remimazolam
- Trust and communication between surgeons and anaesthesiologists
- second part
- Question and answer
- all of them
- Practical experience
- The Q and A
- Sedation
- Everything
- The presentation is each presenters.
- discussion
- Q&A session
- Dr Elsa presentations
- Question and Answer portion
- Every issues were clearly addressed in detail
- Q & A
- The Q and A sessions
- learning about remimazolam use in peadiatric cases
- Anaesthesia Perspective
- Good powerpoint and speakers
- Question and Answer
- Info
- Practical
- Preoperative considerations
- perspective from the surgeon
- The series of lectures

How can we improve ASPA-FLEX webinar series? 171 responses

- Include Case reports
- Keep up the good work
- There is nothing needed to be improved.
- Maybe including videos showing actual cases
- Keep it up
- More case discussions
- Good
- Better audio
- Newer updates
- More often
- with more evidence and experience based
- Clear audio please
- Nothing
- Better audio and slaid quality
- NA
- Practical tips & Q&S Session
- Include case based discussions
- Sunday near dinner time may not be the best timing - I understand this takes into time zones across Asia Pacific regions
- Just keep doing what is good
- Discussing topics which have been better researched
- Nothing. It was great as is
- None as of now. Congratulations.
- For topics requiring surgeon participation kindly invite surgeons to speak on related topics
- There should be some highlights at the end of the Webinar for each topic presented for the audience's better summary.
- Continuing the series with more topics
- Already great
- Just organize them regularly about updated topics

What other topics would you like to be discussed in subsequent webinars?

- Airway management in pediatric patients in this time of pandemic
- Mechanical ventilation
- Perioperative Fluid Management
- work related
- Difficult airway management.
- Updates on neuroanesthesia in pediatric patients
- Pediatric difficult airway
- Neonatal and paediatric sedation for ventilator support
- One lung ventilation and thoracic surgery in neonate and paediatric
- Pediatric fluids,
- Neuro-paediatric cases
- pediatric regional anaesthesia
- Thoracic procedure s
- Intubation in child
- choice of fluid
- anesthesia and sedation for pediatric procedures outside the operating room
- Paed neurosurgery
- Please add more on neonate anesthesia
- Post operative care of pediatrics
- airway
- Pain- acute/chronic
- Pain management in pediatric operation
- Simulation in pediatric advance airway management
- Regional anesthesia for pediatric patients

Moderators/Host feedback:

- 3 speakers met the time requirements giving more time for Q and A.
- Speakers should inform host if they will use a recorded presentation.
