Thoroughly enjoyed

What is the best part of the webinar?

- Short videos
- Learning
- The presentation performances of Dr Koichi Yuki and Dr Ji-Hyun Lee were good.
- All lectures
- Point of Care of lung ultrasound
- Many practical tips have been addressed
- The duration
- Choice of topics
- Everything
- The quiz
- Thanks
- USG on Airways
- For me, I like the discussion on the different used probes and their uses.
- Basics of Kung Ultrasound
- Clinical application
- Ultrasound of the airway
- Different explanations and experiences shared by experts
- Dr.Lee's point of care lung USG presentation and Dr. Yuki's TTE, VCI USG

How can we improve ASPA-FLEX webinar series?

-
- more interaction
 - It is already informative
 - Little bit increase the time
 - Good topic
 - Participation from different countries
 - Just rights
 - Start session with review of basics like what Dr. Ponde did
 - I've filled this form for last four webinars, and am yet to receive the attendance certifiates.
 - More of it please and start again with something simple for us
 - More pediatrics topics
 - Survey
 - Today's webinar was very good
 - just good
 - None
 - There was a lag in the appearance of the slides.. it could also be coming from my end though.
 - More updates
 - Make lectures more accessible to residents in training
 - Good
 - With case scenario
 - Thanks
 - Good as is
 - Better audio
 - You can do it more often
 - Continue ... it s already appreciated so much 😊
 - Can post a 20 QA Pretest 3 days prior to Webinar along with Reminder which we get.
 - More quiz :)
 - It is better to make discussions about Q&A
 - I like it the way it is now
 - So far so good
 - I like it the way it is now.
 - Restrict to 3 or 4 speakers
 - incorporate topic that are of interest in 3rd world countries

What other topics would you like to be discussed in subsequent webinars?

- ECHO findings in common congenital heart diseases
- Complementary care
- Airway management
- Prematurity care.
- Updates in paediatric pain management
- Pain management in paedics
- Regional anesthesia in pediatrics
- Transcranial and VExUS
- Regional anesthesia with sedoanalgesia
- Syndromes in pediatrics
- Neonatal anesthesia
- Malignant Hyperthermia in Children
- Anesthesia for obese children
- Emergencies in paediatrics
- Covid-19 update
- Informing patients and relatives
- Advanced use SGA in pediatric
- Chronic pain in paediatric
- Pedia neurosurg
- Basics of POCUS
