

Report of 11th Webinar of ASPA FLEX series

Topic: Anaesthesia for paediatric ambulatory surgery

Date: May 16th, 2021 at 5pm (SGT), 9am(UCT)

Moderators:

Dr. Hee-Soo Kim

Seoul National University Hospital, Seoul, Korea

Dr. Teddy Fabila

KK Women's and Children's Hospital, Singapore

Technical assistant:

Dr. Teddy Fabila

KK Women's and Children's Hospital, Singapore

Dr. Vibhavari Naik

Basavarakam Indo-American Cancer Hospital and Research Institute, India

Program:

1. Dr. Ekta Rai (India): "Preoperative evaluation for paediatric ambulatory surgery"
2. Dr. Raafat Hannallah (USA): "Anaesthesia for paediatric ambulatory surgery-current/controversial issues"
3. Dr. Young-Eun Jang (Korea): "Postoperative care including pain management after paediatric ambulatory surgery"
4. Dr. Ina Ismiarti Shariffuddin (Malaysia): "Anaesthesia for ambulatory surgery in children with special needs"
5. 5. Q and A session

Overall impression

The webinar was conducted smoothly without apparent technical difficulties except poll question. All the speakers were punctual for their lectures. Because the topic of webinar seems to be matched the interest of the audience, the rating of the webinar was quite high. Most of the questions were appropriately responded. Details of webinar statistics and feedbacks will be followed in the next pages.

Hee-Soo Kim, MD, PhD

Anesthesiologist-in-Chief, Seoul National University Hospital, Seoul, Korea

Clinical/Profesional Specialty

268 responses

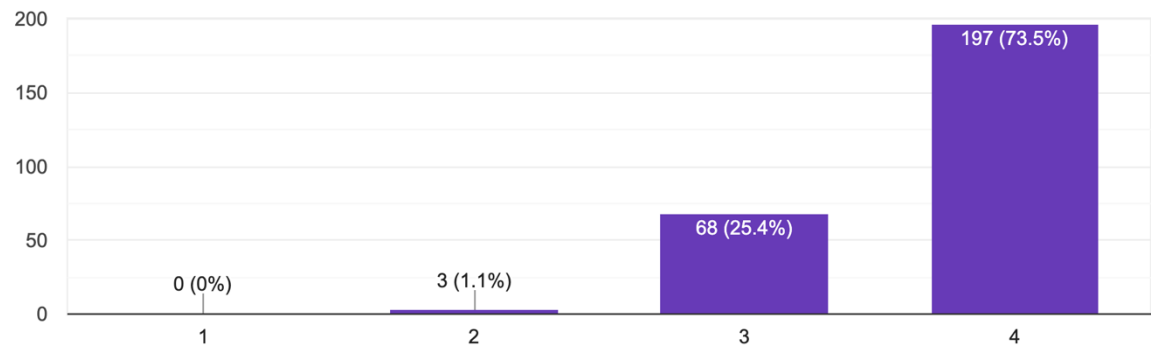

ASPA-FLEX Webinar delivered information I expected to receive .

268 responses

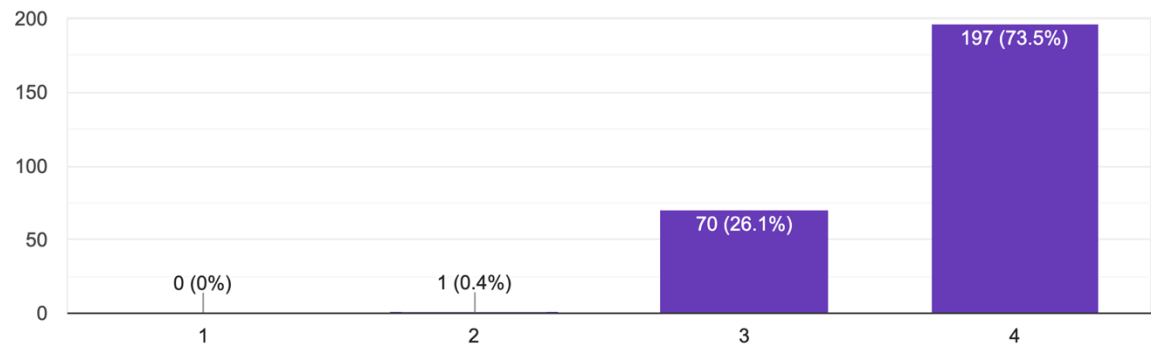

I gained new knowledge

268 responses

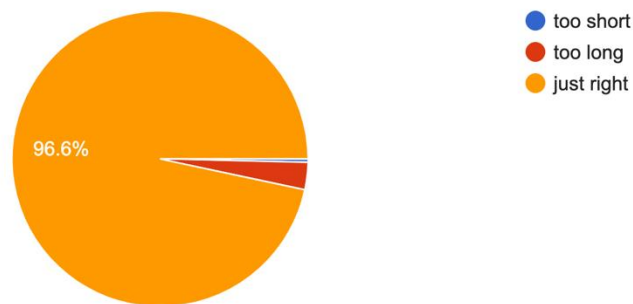

I plan to apply what I learnt from this webinar.

268 responses

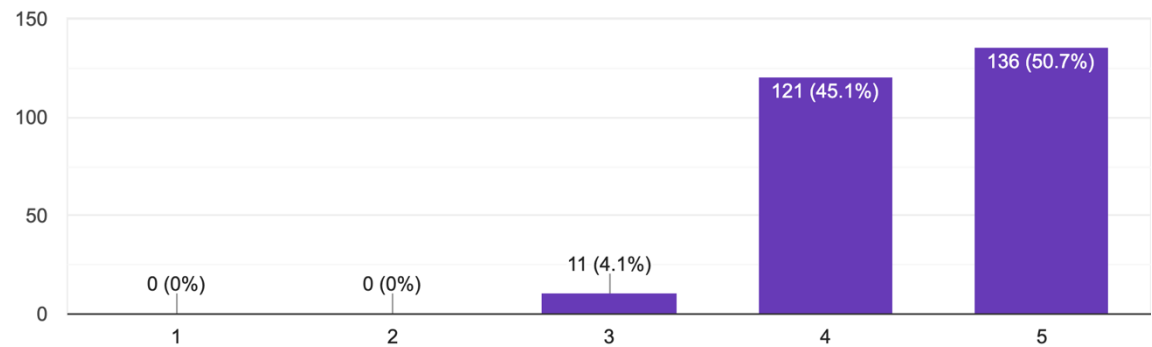

The duration of the webinar was:

268 responses

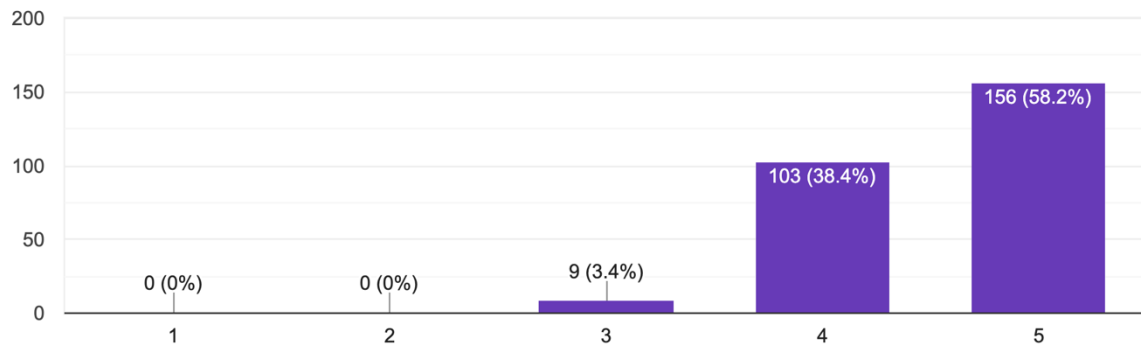

The talk by Dr Ekta Rai on "Preoperative evaluation for Paediatric Ambulatory Surgery."

268 responses

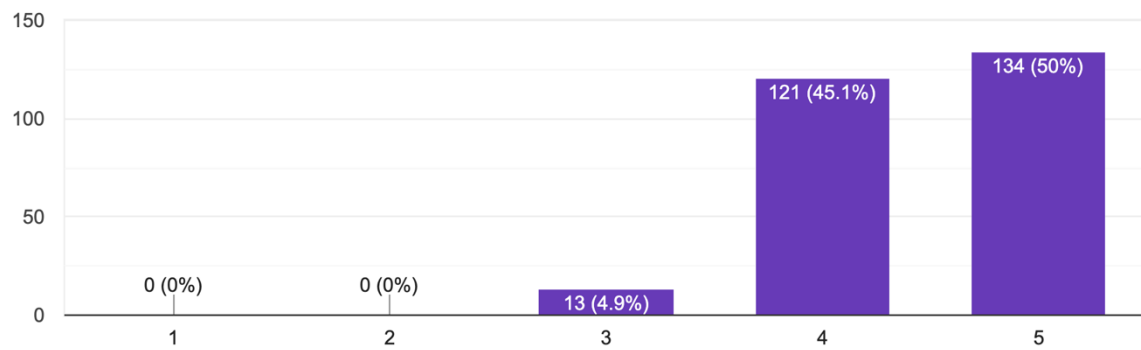

The talk by Dr Raafat Hannallah on "Anaesthesia for Paediatric Ambulatory Surgery – Current/Controversial Issues."

268 responses

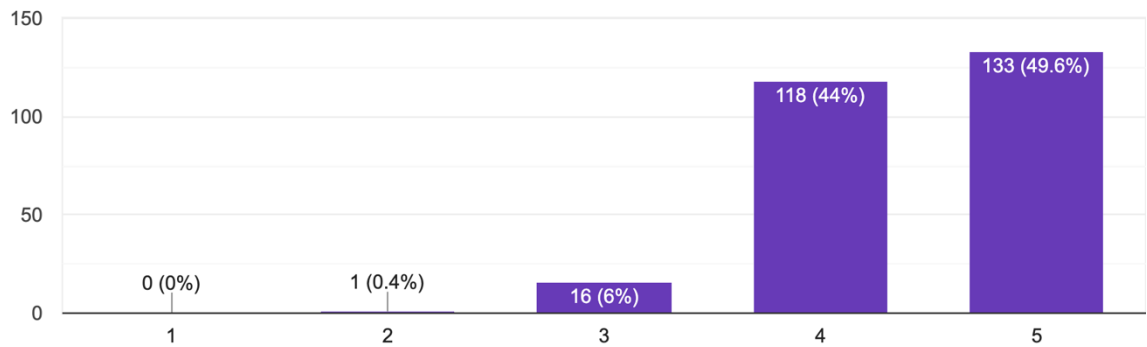

The talk by Dr Young Eun Jang on "Postoperative care including Pain Management after Paediatric Ambulatory Surgery."

268 responses

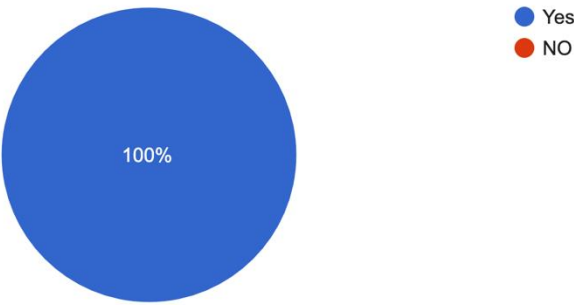

The talk by Dr Ina Ismiarti Shariffuddin on "Anaesthesia for Ambulatory Surgery in Children with Special Needs."

268 responses

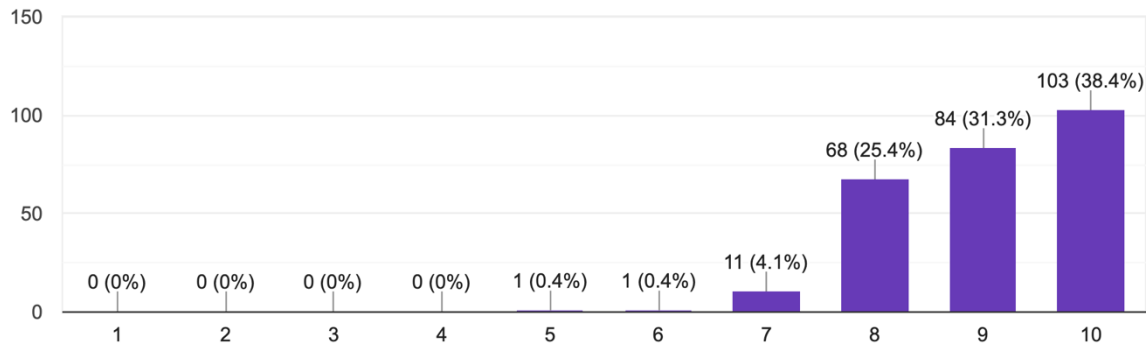

I would recommend this webinar series to fellow healthcare professionals.

268 responses

How would you rate today's webinar?

268 responses

What is the best part of the webinar?

the second talk on current/controversial issues

Preoperative

postop care and pain management

Lecture

Question & answer sessions

0

The topic and speakers were great

NA

I feel very close to pediatric anesthesiologists in Asia.

The lectures were really practical and easily applicable to my practice

Q&A part, learned the different practice in different countries in management of pain in pediatric patients

Dr Ekta Rai and Haanallah, the presentations are compact and experienced.

"Anaesthesia for Ambulatory Surgery in Children with Special Needs."

Preoperative assessment

Listening to the latest literature information, learning examples of practice in various countries and questions and answers are also very useful.

Polls

the topics

All of it!

Types of anesthetic management for pediatric patients in ambulatory setting

the preoperative evaluation of the pediatric patients for ambulatory surgery

Practical advice

multiple speakers sharing experiences

the topic on Preoperative eval

Post operative care and Management

current/controversial issues

Na

Pre evaluation and post operation pain release, Management of PONV and ED

Everything. Very informative.

Informative

Questions

The topic itself

Dr. Hannallah's lecture

Question and Answer

Q&A

Raafat Hannallah on "Anaesthesia for Paediatric Ambulatory Surgery – Current/ Controversial Issues

Everything

The talk by Dr Raafat Hannallah on "Anaesthesia for Paediatric Ambulatory Surgery – Current/Controversial Issues."

Flow, basic, practical

Up to date & practical information

The QandA

Illustrations and audience participation thru survey good as it id

How can we improve ASPA FLEX webinar series?

None

Nil

N/a

none

Interesting topics

None

Improved Diagrams

Nothing to improve on

Na

More webinar topics

It's good as it is

None as of now.

More frequent

NA

None for now

with participants from different countries

Good

involve speakers from Africa to share some paediatric anaesthesia cases

great

Good audio

variety of topics

Adding more interactive poll question session and exemples

More interesting cases

Live workshop in different cases (selective elective case)

No comments

More time for Q&A

Everything is okay!

Everything is perfect

Providing offline links of webinar.

0

To have many more webinar

Pls give certs. I didnt receive any cert for past webinars

Good as it is.

more webinars

More frequently online topics

Provide the recording or PowerPoint or pdf for download

just continue

More frequently topics online

Better time management

Evidence based lectures

Interactive at times

Limit toblessor segments

?

More relevant topics especially during this time of pandemic

by including day to day questions in Ped anaesthesia

Frequent announcements

I have no further additions. The webinar series has been great!

Speaker's voice. It would be nice to improve the quality of how they sound or maybe because of my internet signal.

more sessions/topics

Letter font on slide show should be easy to read

So far so good

I think it's good to continue like this

Limit to 1.5 hrs

nil

discuss most commonly encountered problems to help in day to day management of patients

Speakers from wide area of Asia.

Pre operative evaluation

-

Keep it coming pls

By sending email invites

Keep it often

Maybe a part 2 for this month's topics. More in depth

Flow is good as it is

By announcing more.

Just Ok

That's great.

Good enough 0

Good visual aids (clear slides, big fonts)

very good

The webinar is good to be within 1-2 hours, and divide into more sessions will help us to learn better

Give more cases and its management for pediatric pts.

Will recording be provided? Or slides or notes?

No comment

no further comments

Surveys can be made related to subject topics

Surveys can be made related to subject topics

More time for Q & A session

continue the wonderful webinars

Timing

With newer topics

By conducting more webinar like this.

more visual aids

All ok

Just being what you are

That's great.

Sharing with us

Interesting topics and issues

More lectures

Keep up the good work

Part 3

Discussion point can make theory knowledge by collecting relevant literature.

What other topics would you like to be discussed in subsequent webinars?

Any

N/a

Nil

None

Pediatric regional anesthesia

Na

Emergency neonatal surgery

Pain medication

Anesthesia in pediatric ophtalmology surgery

Lap surgery in children

Pediatric trauma

None as of now.

New update.
